SandiCare, LLC

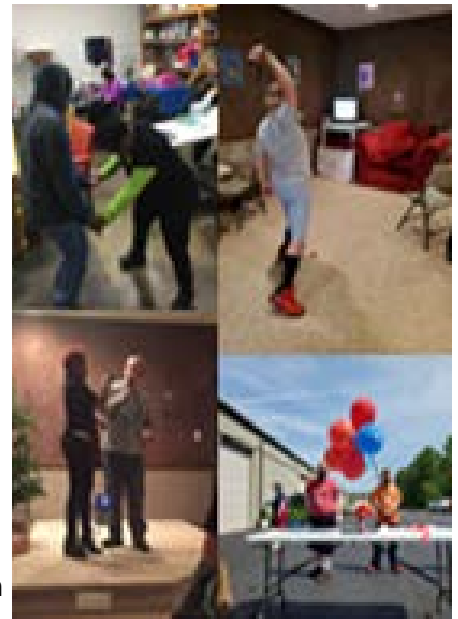

1484 Medina Rd. Suite 116
Medina, Ohio 44256
330-888-8737

SandiCare, LLC opened in 2011, as a home care agency. With aspirations to do more for the community we opened an adult day center in 2015. SandiCare was started to help enrich a society that will truly include individuals. Presently, our staff consists of five employees and a volunteer.

We are fortunate to provide services in Medina, Cuyahoga and Summit Counties.

Prior to COVID-19, we were providing services for up to 24 individuals and preparing to bring in more. Presently, we serve approximately seventeen individuals throughout the week. However, in order to maintain on going contact with individuals we have created a remote platform that allows for the continued growth of accomplishments with individuals that cannot be present at times.

Through IO and Level One Waivers SandiCare is driven to sincerely commit and engage with individuals through numerous services including Vocational Habilitation and Adult Day Services. Supports establish creative opportunities that allow individuals to grow in ways never expected. We expect to bring in additional individuals soon.

Mission Statement

A vision to inspire and serve, manifested into a "mission" dedicated to provide caring and compassionate services for citizens with intellectual and developmental disabilities. As SandiCare continues to actively support the full inclusion and participation of some of the most vulnerable in society, we diligently work toward eliminating barriers, creating opportunities, empowering and promoting innovation for those in our care.

Agency Highlight

Our Breakfast Club of SandiCare Podcast is a great example of how we affectively bring out the best of those we work with. SandiCare Individuals host a one of a kind podcast with a talented producer heard by thousands nationally. Self-Advocacy and Self Determination is made evident through varied subject matter.
