

For Ohio Families: Planning and Advocating Using Charting the LifeCourse

3 part series
October 28, November 11, and
November 18
6:30 pm to 8:00 pm

The Charting the LifeCourse (CtLC) framework was created to help individuals and families of all abilities and all ages develop a vision for a good life, think about what they need to know and do, identify how to find or develop supports, and discover what it takes to live the lives they want to live.

During this series, you will learn how to use Charting the LifeCourse to:

- "Introduce" your family member in a human supportive manner
- Prepare for planning meetings
- Identify a good life across the lifespan and life domains
- identify resources

Charting the LifeCourse™ and LifeCourseTools.com is a project of the University of Missouri-Kansas City Institute for Human Development, Missouri's University Center for Excellence in Developmental Disabilities Education, Research and Services (UCEDD).

Presented by Barbara Sapharas:

- Ohio Ambassador-Charting the LifeCourse
- National Team Member, Charting the LifeCourse-University of Missouri-Kansas City (UMKC)
