Mission Statement

Intervention for Peace strives to empower individuals to live complete lives and maintain independence in the least restrictive environment with dignity and respect.

Agency Overview

Intervention for Peace has been serving the community of adults with developmental differences since 1994.

CEO, Teresa Davidson founded IFP in 1994 with her compassion, empathy and drive to improve the lives of others. Teresa specifically focused on individuals with dual diagnosis. The motivation behind IFP is to empower individuals by focusing on their ABILITY, not disability. IFP meets the individual where they are and uses a person-centered approach to help develop goals and work towards independence.

Currently IFP employs sixty-three loyal and dedicated staff members. IFP serves 38 individuals residentially and 36 through our non-profit day program, Peaceworks Inc. (Spokes Cafes, Planet Joy Art Studio, Sprouts of Peace Horticulture)

Intervention for Peace provides Homemaker Personal Care Services, Vocational Habilitation, Non-medical Transportation and Remote Supports. Waivers include I/O, Level 1, Self, and local funding. IFP serves individuals in Medina, Summit, Portage, Wayne and Cuyahoga Counties

IFP is currently accepting individuals in Peaceworks for Vocational Habilitation. Specifically, for horticulture and community integration.
