

WINDFALL PRESCHOOL

a wonderful preschool
experience for children
of all abilities

WINDFALL PRESCHOOL

learn

We build each child's self-esteem, confidence, imagination, and desire to learn in a fun-filled way. All children who attend our preschool are valued, respected, and celebrated everyday as unique individuals.

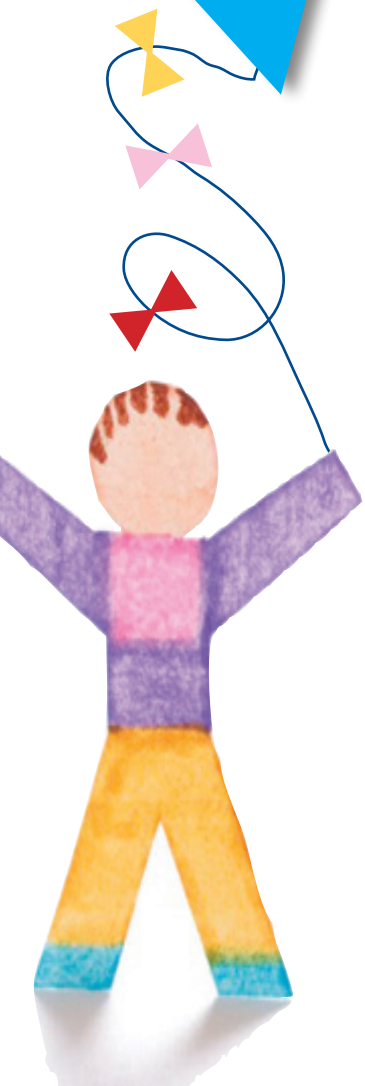

Why choose our program?

All children can benefit from being part of a diverse group. Our classrooms allow children, with and without disabilities, to have fun while learning together.

Kids will be friends regardless of differences. Children look for the true values in life - be nice, smile, share, play together. Children with and without disabilities are able to take advantage of the one-of-a-kind experience that our program provides.

At Windfall Preschool, every child has extraordinary opportunities to develop friendships, compassion, and a deeper understanding of friends, all while learning the skills needed to enter kindergarten successfully.

Great Teachers

Great teachers are the foundation of our program. Each teacher is a caring individual who is actively involved in helping each child succeed. Their love of children and their dedication to providing the best learning experience is what makes them special.

All of our classrooms have state licensed teachers, each with at least a four-year degree in Early Childhood Education and Special Education. Certified classroom assistants are also on hand to make sure every child gets the attention and care they need.

Children who attend our preschool have the added benefit of art and physical education.

Great Environment

A warm, creative, fun-filled environment sparks children's curiosity, independence, and natural yearning for knowledge. Windfall Preschool has beautifully equipped and spacious classrooms. We also have a large outdoor fenced playground. For those rainy and snowy days, we have an indoor gymnasium which is well stocked with the items your child needs to stay active all year round.

WINDFALL PRESCHOOL

Family Involvement

Windfall School provides many opportunities for family activities. These include family field trips, seasonal activities, picnics, and more.

Our teachers value parent feedback and input concerning their child's preschool experience and development.

WINDFALL PRESCHOOL

Curriculum

We know preschoolers are concrete thinkers and need to touch, hear, smell, taste, and move in order to understand their world. Our curriculum includes activities that encourage children to learn through exploration, discovery, and technology, as well as through instruction.

We focus on the key areas of preschooler development: learning, communication, fine and gross motor skills, and social skills. We tailor learning activities to benefit each child. We create goals, constantly evaluate progress, and involve parents to make sure each child is getting the early education they will benefit from the most. We challenge the mind, spark curiosity, and prepare children for success in life.

Our areas of learning include:

Early Literacy and Language

Music and Art

Math and Science

Social Development

Physical Education

Our preschool program offers a well-rounded early childhood education curriculum that follows the Ohio Early Learning Content Standards. These standards govern every licensed preschool in Ohio.

learn

ADDED BENEFITS

- Small classes - maximum class size of 10 preschoolers
 - High teacher to student ratio
- On-site nurse, art teacher, and physical education teacher
- Daily communication with parents
- Parent support groups and programs
- Speech, occupational, and physical therapies, and specialized instruction for board eligible students with special needs

grow

Please call the Windfall School Office at 330-725-7751 option 1 or visit www.mcbdd.org for more information and an application.

visit

The best way to see the great things our preschoolers do everyday is to come for a visit. Take a tour! Meet the teachers!

See first hand why Windfall Preschool could be a unique learning experience for your child.
