

# - School Drop-off and Pick-up -

We want to make sure all our Windfall School students are able to start and end the school day in the most safe way possible. That is why we ask parents and caregivers to follow these basic guidelines when dropping off or picking up their Windfall School student. We appreciate your understanding and help with this process.

All students are to be dropped off along the sidewalk near the doors at the north end of our building.

Parents, caregivers, individual transportation and school vans will enter the first driveway (the north-most entrance) of the Achievement Center and wait in line to drop their students off at the sidewalk. Windfall School staff will be waiting at the sidewalk to greet students in the morning and bring them out to you in the afternoon.

Vehicles will then loop around the parking lot and exit out the same driveway from which they entered.

Please see the diagram below to help your understanding of our school traffic pattern. This system of drop off and pick up allows all of our students to leave vehicles more safely and not have to walk where vehicles may be moving.
