## Mission Statement

At Consumer Support Services, Inc. we believe in providing support for all individuals with developmental and other disabilities to maximize their ability to exercise their choices and preferences. CSS is committed to helping each individual achieve as much independence as possible. The focus of CSS is to protect the individual's rights, independence, and safety; which facilitates the increase of skills, competencies, and opportunities to make choices. These core values enable the individual to maintain and strengthen valued family and other personal relationships.

## Agency Wish List

*CSS's wish is for more socialization between companies. This summer, CSS held their first annual Summer Dance for all individuals in the county, and are looking forward to more attendees next year!*

## Agency Overview

Consumer Support Services Inc. was founded in 1993, starting as a consulting company to assist residential providers and county boards of developmental disabilities with technical assistance. In 1994, local county boards asked Consumer Support Services Inc. to become a residential provider, and they began providing direct care services to individuals soon after.

CSS currently serves 20 counties in Ohio and more than 590 individuals across the state. At the Medina office, CSS employs 55 staff members and provides day programming, NMT, and residential services to 30 individuals with disabilities. CSS provides services for all waivers.
